

Let Beaver find better prices online

Turn on Beaver Plugin on your Chrome browser to show Beaver an item. Beaver finds the best offer for the item on the web.

Beaver queries shopping search engines on your computer and collects price and other information for each seller. Beaver can search right away.

Or Beaver can search daily and notify you when the best price changes. Think of Beaver like a "price alert" for items for the entire web - not just one or a few websites.

Let Beaver do the work.

I'll build comparison tables and send email alerts, so you never overpay.

Pricey One-Offs

Daily Use Items that Add Up Over Time

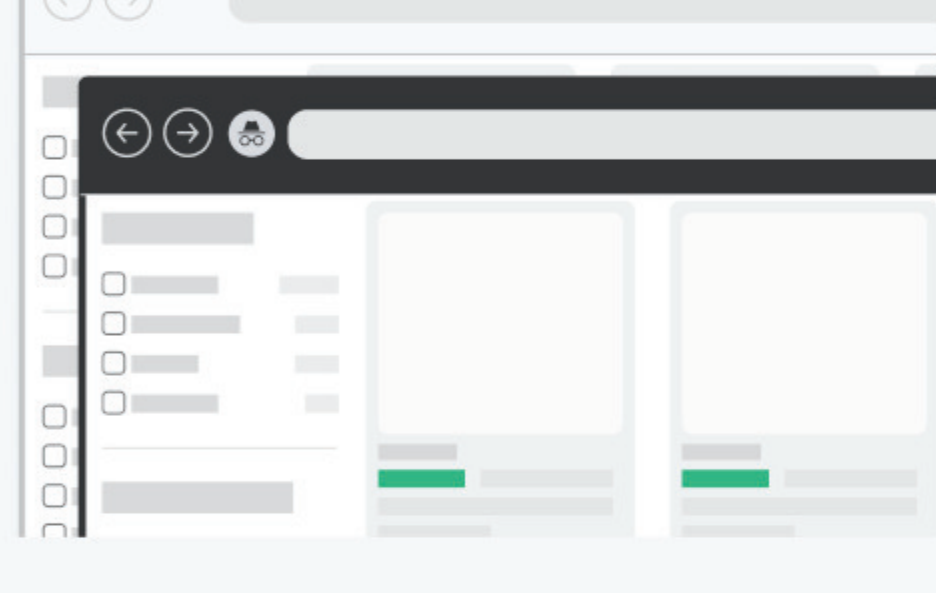

Beaver uses your computer's Chrome Browser.

Beaver queries popular search engines when you're not using your computer. Set Beaver to browse Incognito if you want to hide from 3rd parties that sell your information.

Beaver doesn't sell your personal information and never will.

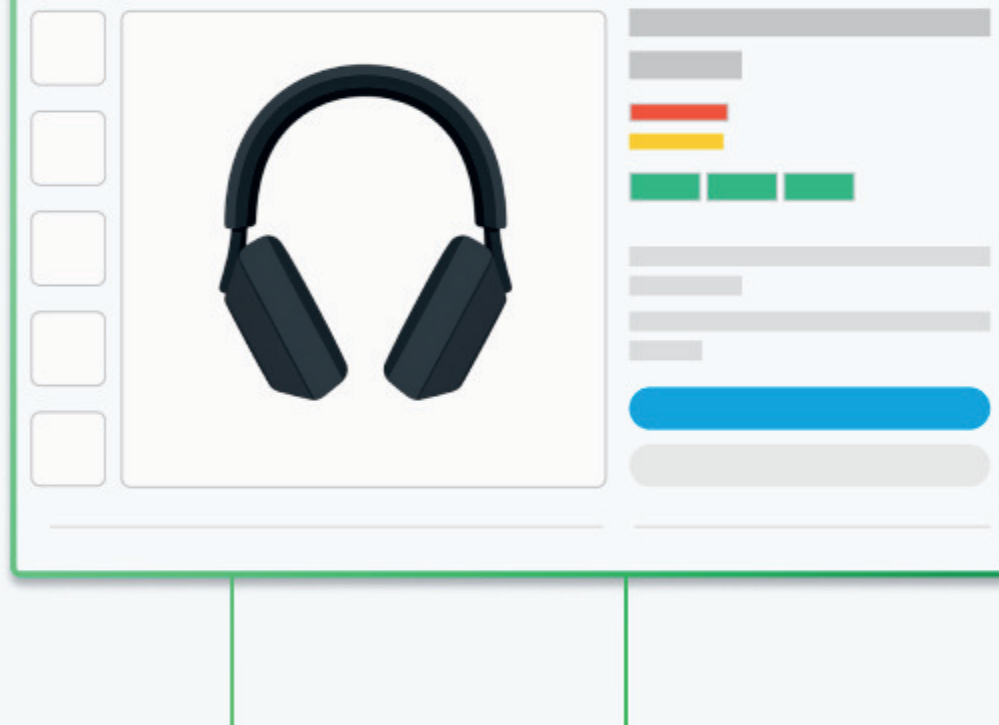

Set Beaver to search now, daily, or weekly. Whichever works for you.

Turning on Beaver Plugin prompts Beaver to identify the item on the page

Beaver searches for the same item on the page, so you should select size, color, flavor, and any other choice on the page to help Beaver understand what you want.

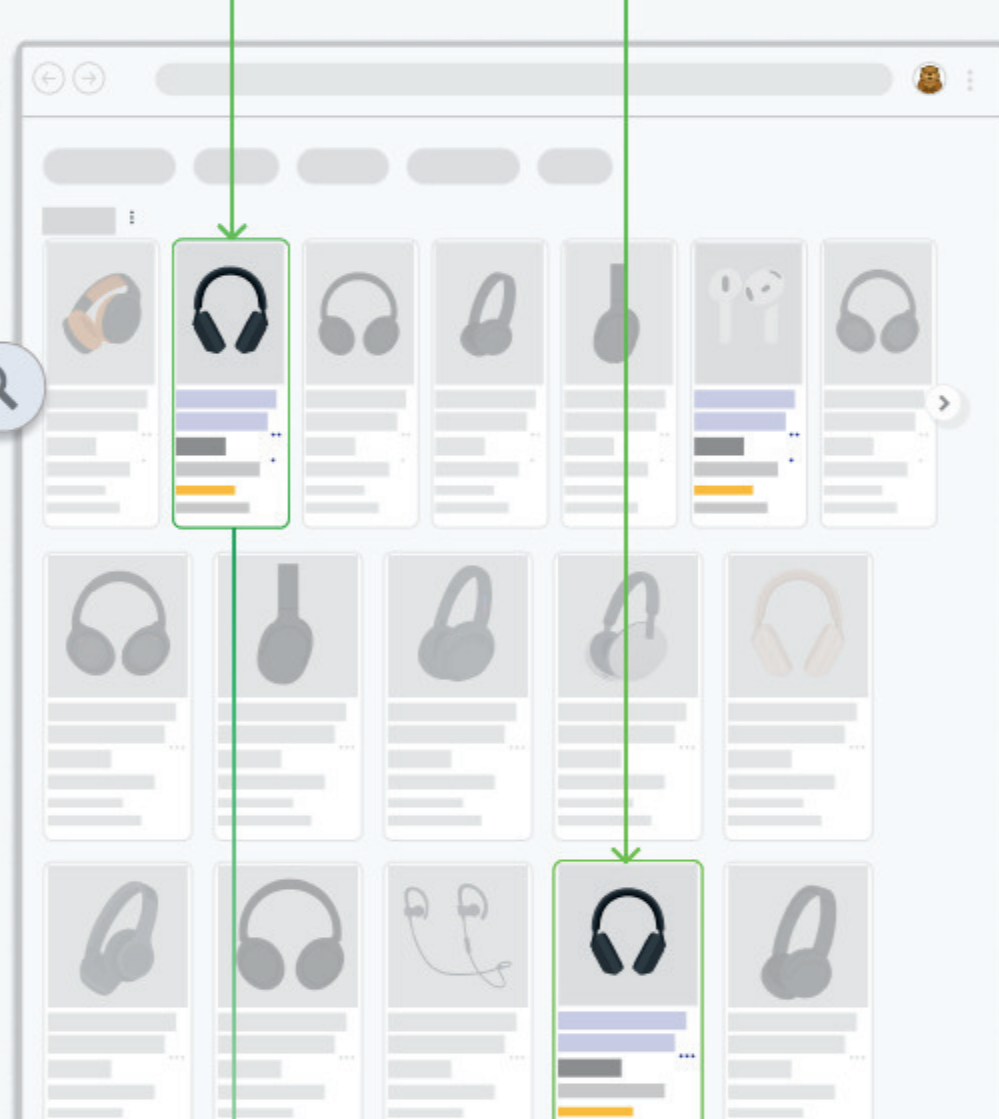

Are you interested in used items because they're cheaper? Let Beaver know.

Beaver searches for the item and finds stores that carry it

Beaver scans the search results list and picks out matches.

Sony WH-1000XM5 black noise canceling headphone

Beaver clicks through matches and views the merchant pages to check they're the right item

Sometimes, the actual available item on the merchant page is not what you want. Don't worry, Beaver finds the right item.

You want...

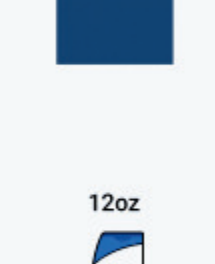

but really is...

Beaver collects price, shipping speed, delivery cost, and return policy information into a table

The table helps you find the most suitable seller for you.

Item	Date	Seller Link	Price	Shipping Cost	Delivery Speed	Return Policy
black noise canceling headphone	7/12/25	https://www.ee.com/z9sa...	\$239.99	Free	Arrives 1 day	90 days
black noise canceling headphone	7/12/25	https://www.pl.com/AeQ...	\$219.99	Free	Ships 5 days	30 days

Let Beaver collect info daily and notify you of price changes

Buy that one pricey thing when it gets cheaper or stock up on things that you use daily when they're cheaper. Beaver saves you time and money by doing the busy work for you.

Beaver is an AI browser use agent that is trained to be your shopping assistant

Sure, Beaver is cute. But underlying Beaver is a sophisticated suite of AI technologies that search/browse the web and collect shopping information for you. Beaver uses proprietary computer vision technology that reads shopping pages the way our own human eyes do.
